THE **GARNER**

A Wolfe Nursery introduction acclaimed outstanding
for quality, production, and unexcelled shade

We have fruited this great Paper-Shell Pecan alongside of many others during a period of 20 years. It grows quickly — it produces more — it makes more money per tree than any other variety. Its quality is superb. — Garner is your TRUE paper-shell, so thin it can be cracked between your fingers. Its creamy delicious kernels are extremely rich with a distinctive flavor. — Garner will produce at least one-third more per tree than any other pecan and produce nuts the first to second year after planting. Garner is one of the most outstanding of all Western varieties. Plant along with Mahan for best results. Order early and get the benefit of early rains. Garner is labelled RED.

PRICES:

2 to 3 ft. trees — \$2.95

5 to 7 ft. trees — \$6.90

3 to 5 ft. trees — \$4.75

Giant 7 to 9 ft. trees — \$9.50

**Garner
will outbear all
other Pecans.**

Note this beautiful Pecan;
what a thin shell, how
perfect the big kernels,
and the ideal shape.

WOLFE NURSERY

YOUR OLD RELIABLE NURSERY FOR THE SOUTH

STEPHENVILLE, TEXAS

WESTERN SCHLEY

THE PIONEER WESTERN VARIETY

PRODUCING PROFIT EVERY YEAR

One of the most ideal home orchard and commercial varieties. Its size is large and its shell thin. Western Schley never fails to prove that money does grow on trees. The tree is remarkably healthy, a strong grower, early and heavy producer. A genuine Risien Gold Medal Pecan that makes a gorgeous shade specimen in a hurry. Labelled with a GREEN stripe.

PRICES:

2 to 3 ft. Trees — \$2.40
5 to 7 ft. Trees — \$6.40

3 to 5 ft. Trees — \$4.10
Giant 7 to 9 ft. Trees — \$8.50

SUCCESS

This most popular Eastern variety is in demand because of its excellent flavor; large, plump, smooth, creamy kernels that release perfectly from the thin soft shell. Forty of the big nuts usually make a pound and it tests high in meat content. The tree is a beautiful, vigorous grower and highly resistant to scab. It heads low and makes an ideal variety for yard planting. Success ripens a few days later than Stuart. Both are very polliniferous. DON'T FORGET Wolfe's MACHINE-DUG ROOT SYSTEM makes the difference. Your trees will grow off faster—produce earlier—and make a vigorous shade tree years sooner. Common sense will tell you that a tree cannot grow with all its feeder roots cut off. Buy Wolfe Nursery selected machine-dug trees and you buy the finest. Success is labelled with one PINK stripe.

PRICES:

2 to 3 ft. Trees — \$2.40
5 to 7 ft. Trees — \$6.40

3 to 5 ft. Trees — \$4.10
Giant 7 to 9 ft. Trees — \$8.50

STUART

A POPULAR VARIETY ADAPTED TO ALL SECTIONS INCLUDING THE COAST

Stuart comes nearer to being well adapted to all sections of the country and all soils than any other variety. It is an excellent producer and a hardy, fast growing, healthy tree. The meat has a real Pecan flavor and the shell is medium thick—somewhat brittle. The average Stuart will run 48 to 50 per cent kernel. As you can see by the actual color picture at the left, the Pecan is large and always well-filled. The trees bear regularly and are highly resistant to scab. Stuart is labelled YELLOW.

SPECIAL GOLD MEDAL COLLECTION

NOW OUR PAPER SHELL PECAN SPECIAL IS OFFERED IN 3 SIZES. Several years ago, many of our customers asked us for a pecan special offer. We came out the next year with our original pecan special. It was 3 trees, 1 to 3 ft. size, for \$5.00. That special meant a saving of \$2.20 to our customers and thousands of good people bought them. Many, many customers who wanted larger trees at a bargain price have written us—so, for the first time, we offer our Gold Medal Collection in three sizes. We are selecting three of our best varieties: Burkett, Stuart, Giant-Mahan, Garner, Success, or Western Schley—those best adapted to your location. Before you know it, these select Wolfe-grown trees will be producing loads of big, delicious paper-shell pecans.

Burkett

**FOR UNSURPASSED SHADE IN YOUR YARD
FOR EATING PLEASURE AND SELLING PROFIT
PLANT WOLFE'S FAST-GROWING BURKETT**

The leader, and will continue to be, in Western varieties. Burkett is a regular and heavy producer of large, round, fat pecans that are perfect for home use and bring top market prices. Burkett is popular — as long as we have been in business the market demand for Burkett and Garner has never been supplied. It has a rich flavor and its meat content is so high that just a few of these choice pecans go a long way. Plant Western Schley or Garner for perfect pollination. Plant only in altitudes of 600 ft. and up and on well-drained land. Wolfe Nursery's select Burkett's are labelled with one BLUE stripe.

GIANT MAHAN

Giant MAHAN

*The world's largest pecan--
the world's most beautiful Pecan Tree--*

Can you imagine Pecans so large that the clusters of nuts look like bananas on the trees? That's Giant-Mahan — THE WORLD'S LARGEST PECAN. The nuts look somewhat like Schley but they are more than twice as large. Giant-Mahan is also a true brittle paper-shell and brings more money per pound than any other Pecan. This variety has become increasingly popular due to the healthy, vigorous-growing tree which makes a beautiful shade specimen. It grows upright and puts on dense, dark green foliage. The leaves are extremely large. Added to this feature, it is adapted to all sections and is resistant to common diseases. Giant-Mahan is a heavy producer and our Machine-Dug root system enables it to start bearing soon after you plant it. Giant-Mahan and Garner make an ideal pair for home or commercial planting. Mahan is labelled with one WHITE stripe.

WOLFE NURSERY'S AMAZING GUARANTEE!

Every plant that we sell is guaranteed to live—and—should any portion of your order not live, we will replace it absolutely free of charge when notified by September 1st following your purchase. Naturally, this guarantee cannot cover that over which we have no control, such as, drouth, flood, freeze, and hail. Our first obligation is to please you and, if your order is not satisfactory in every respect when it is received by you, we will cheerfully refund your money or replace your stock free. Of one thing you are assured—you get your money's worth every time when you order from the dependable Wolfe Nursery.

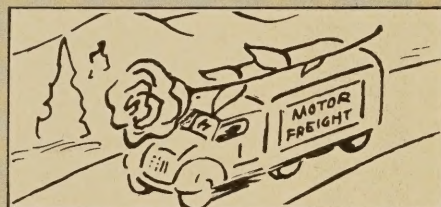

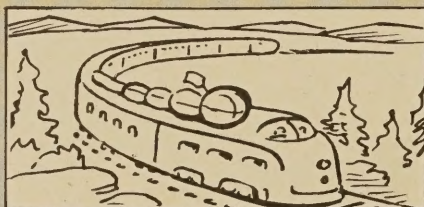

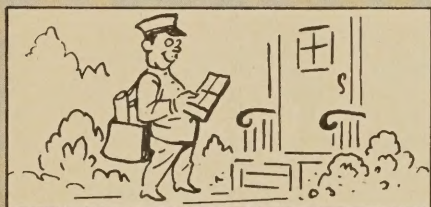

HOW YOU ORDER

● Use the simplified order sheet which is enclosed. The name of everything in this catalog is listed on the order sheet as follows: name, color label, size, price each—all you have to write is the quantity and total price. Carry the total of each column to the Special Offers where you write TOTAL. Use the self-addressed return envelope—it saves time in handling your order. If we are unable to ship all your order when it is received, the items left out will be marked "S. L.", which means that it will be "shipped later."

Note: If trees or plants are sold by specific size, that size is shown on order blank. Many trees are sold as 2 yr. mediums or 2 yr. large trees. This will be shown in *size* column of the order blank as MED. for medium or LAR. for large.

HOW WE SHIP

WE PREPAY YOUR ORDER RIGHT TO YOUR DOOR

When you order from Wolfe Nursery, all you pay is just the low cost of the plants as listed in this catalog. **WE PREPAY ALL SHIPMENTS.** There are absolutely *no hidden costs* such as shipping or packing. We *prepay* to your door the nation's most select, guaranteed nursery stock. You order with complete assurance from the dependable Wolfe Nursery and we *prepay* your order to your door.

For comfortable—refreshing shade in your yard—for eating pleasure and selling profit—for the choicest—most select—pedigreed paper-shell pecan trees ever grown—depend on Wolfe Nursery.

Four Great PEACHES

NEW ELBERTA

This is a juicy, yellow freestone that ripens about June 20. The first of its class to reach the market, New Elberta has been widely planted as a commercial peach because of its young bearing habits and high quality fruit. It is a good home orchard variety, since it is an extra fine all-around peach. Whether you want to eat it juicy ripe off the tree, can, or freeze it, you'll like New Elberta. Grown and guaranteed by Wolfe, New Elberta is labelled with one PINK stripe.

PRICES:

2 yr. Large Trees - \$1.50

2 yr. Medium Trees - \$1.00

GOLDEN JUBILEE

This is the first yellow freestone to ripen, and they are ready to eat, tree fresh, between the 10th and 15th of June. Now, this is a better peach than the regular Golden Jubilee. This improved strain doesn't have the soft tip on it and, of course, it comes off earlier. It has a fine, sweet flavor and bears every year. New Golden Jubilee is a Wolfe Nursery, frost-resistant peach that belongs in every home or commercial orchard. Labeled with two YELLOW stripes.

PRICES:

2 yr. Large Trees — \$1.50

2 yr. Medium Trees — \$1.25

HALEHAVEN

A prize-winning freestone that ripens June 25th. Halehaven is a large, beautifully colored, yellow-fleshed peach that is without question one of the finest canners grown. Commercial orchardists know Halehaven as a bountiful producer and a splendid shipper that brings top prices on the market every year. It is perfectly self-fertile, extremely hardy, prolific, and a good pollinator for other peaches. Labelled with two BLUE stripes.

PRICES:

2 yr. Large Trees — \$1.50

2 yr. Medium Trees — \$1.00

FRANK

FARM AND RANCH Magazine says, "The most outstanding peach produced in the Southwest." That just about tells the story, for Frank is outstanding in every respect. It is a large, firm, juicy, yellow cling that ripens August 10th. It's so sweet that most women can them without sugar. Now 47 years without missing a crop at Mexia, Texas. Frank's record year-in, year-out production, proves its value as an outstanding frost-resistant variety that is a "must" in every home or commercial orchard. Guaranteed by Wolfe Nursery and labelled with one WHITE stripe.

CULTURE

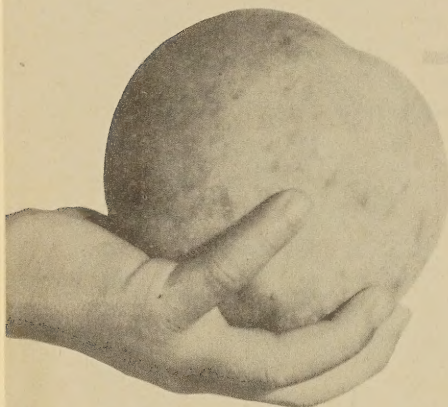

ELBERTA

Would you believe that there are over 100 kinds of Elbertas being sold by nurseries? Very few have the original, pure-strain that gained world-wide fame for its size, color, flavor, and bearing habits. The buds that we use come right off trees in our own bearing orchard. It's the oldtime Elberta that our parents knew and remembered as being one of the most dependable bearing trees of all time. Our true Elberta, a huge, yellow freestone, ripens July 10th. Labelled with one GREEN stripe.

PRICES:

2 yr. Large Trees - \$1.50
2 yr. Medium Trees - \$1.00

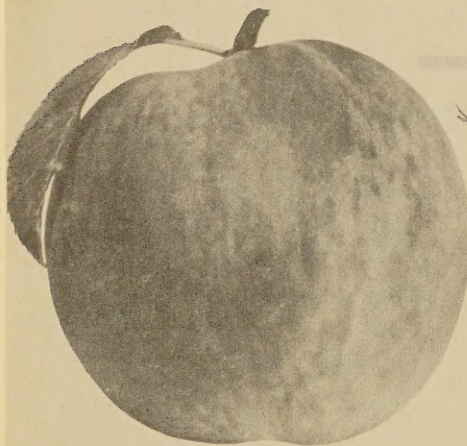

INDIAN

A real handful of the most outstanding, red-fleshed, red-skinned peach that is grown. Mrs. Wolfe says it is the finest pickling peach in the land, and women who live in the Stephenville area come to our orchards every year when the Indians get ripe — they buy them and pickle them, and the whole family has a treat all winter long. Not only are they a treat when they are pickled though — they're fine eatin' when picked ripe right off the tree. Our true-strain, old Indian Cling ripens July 20. Indian is labelled ORANGE.

PRICES:

2 yr. Large Trees - \$1.50
2 yr. Medium Trees - \$1.00

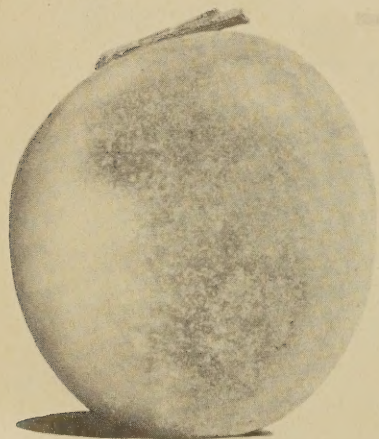

GIANT HALE

A Grand Champion Show Peach that draws more attention and brings higher prices on the market than any variety that we know. Giant Hale is a yellow freestone that ripens July 15th. Its skin is a deep, rich red, and its meat a bright yellow. We've had Giant Hales come out of our bearing orchard that would weigh over a pound and would be as much as a foot in circumference. It's a giant all right, and you will be proud of the results you get when you plant Giant Hale. Labelled YELLOW.

PRICES:

2 yr. Large Trees - \$1.50
2 yr. Medium Trees - \$1.00

FRANKIE

A true sister peach to the famous Frank that ripens from August 15th to September. This large, beautiful yellow freestone has all the qualities of Frank with one exception — Frank is a bit sweeter. Frankie is a heavy producer even during years of late frost and dry spells. It has bright color and flavor that sells on sight. Frankie and Frank make an ideal pair for either home or commercial orchards. For the very best late-ripening freestone, be sure to plant Frankie. Labelled with a BLUE stripe.

PRICES:

2 yr. Large Trees - \$2.00
2 yr. Medium Trees - \$1.50

All plants should be unpacked immediately upon receipt from our nursery. Check carefully to see that the varieties and sizes you ordered were shipped, or that proper substitutions were made providing we were authorized to make them. Be sure to keep the original copy of your order blank which serves as a packing slip and was returned with your order. *We will need it in case of adjustment.*

You should make a special effort to do the planting when the nursery stock is received. If conditions are unfavorable for planting, heel the plants in the ground in a well-drained location. Dig a trench that is deep and wide enough to hold the roots. Remove the plants from the package, cut all strings, and place their root system in the trench. To prevent the roots from drying out, work the soil thoroughly in and around the roots. Regardless of whether the soil is wet or dry, pour sufficient water in the trench to pack the soil closer to the roots. This will drive out air pockets, keep the roots moist, and in a good living condition.

TEXABERTA

The Nation's Perfect Peach

A perfect freestone that ripens about July 10. This outstanding peach has not missed a crop at Belton, Texas, since it was originated 24 years ago. Combine the best qualities of all peaches, add a few, and you have Texaberta. It has bright red, juicy flesh around the seed, forming into deep, tender yellow toward the bright red-covered skin. Delicious? — well, you just don't know what good eating is until you have had the juice of a Texaberta running down your chin after a good bite. Texaberta produces in mild climates where Elberta is a failure — and — it is extra FROST-RESISTANT. Texaberta is sold only by Wolfe Nursery and is labelled with a RED stripe.

MELBA

By far our greatest find in an all-purpose, large, delicious, honey-hybrid peach. It is adapted from coast to coast and is the leader of all frost-resistant varieties. Our show orchard here at the nursery took 10 degrees below freezing while in full bloom and still produced a bumper crop. Melba starts ripening early in June and lasts most of July. No other peach ripens over such a long period. Never has a fruit variety received such unanimous acclaim as Melba. Not one person has failed to say, "That's the best peach I ever tasted." Melba, the Honey-Hybrid, Queen of all eating peaches, is labelled with two RED stripes.

PRICES:

2 yr. Large Trees - \$2.00

2 yr. Medium Trees - \$1.50

ROBIN

First In The Spring

This is the most valuable and extraordinary of all the new peach varieties because it is the first good peach of the season, ripening weeks before any other good early peach. That fact alone puts Robin in a class by itself. It is a beautiful red-cheeked, white-fleshed, medium-size fruit, semi-freestone, so richly colored and handsome that it will make your mouth water just to look at it. Deliciously flavored, the fruit is firm and smooth, almost fuzzless, round in shape. It keeps well after picking. In addition to ripening the first good Peaches of the season, Robin Trees bear enormous crops. They grow rapidly and bear fruit amazingly soon — sometimes the first year after planting. If you and your family want to enjoy the first good Peaches of the season, then you will have to include Robin in your home garden planting. Labelled WHITE over WHITE.

PRICE: \$2.00 - each

PLANTING DISTANCES

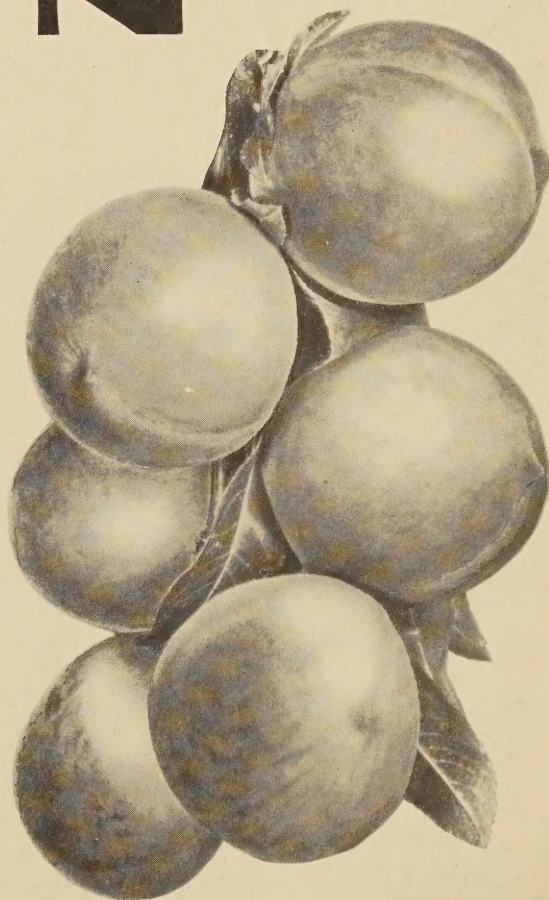

Give Plants Enough Room

Planting distances between trees depend primarily upon the type of tree, its purpose, the amount of rainfall, and the fertility of the soil. For example, trees planted in East Texas and the South-eastern States may be planted closer together than those of West Texas and New Mexico, because of the greater rainfall in the Eastern section.

To make allowance for these factors, the following distances are recommended:

Apples, Pears, and Apricots	30 to 40 ft. apart
Cherries, Plums, and Cherry-Plums	20 to 25 ft. apart
Figs	15 to 25 ft. apart
Grapes	10 to 16 ft. apart
Peaches and Persimmons	20 to 30 ft. apart
Pecans and Walnuts	40 to 60 ft. apart
Shade Trees — Large growers: Chinese Elm and Sycamore	30 to 50 ft. apart
Medium to small growers: Mimosa, Red-bud, and Weeping Willow	20 to 40 ft. apart
These trees may be spaced closer together when planted in a single row or in yards.	
Dew-Black berries	Plant 3 ft. apart in rows 6 ft. apart
Rosberries and Thornless Boysenberries	Plant 4 ft. apart in rows 6 ft. apart

SUPERB

GOLDEN CLUSTER

Golden Cluster

A medium to small prolific Apricot with a smooth light orange-yellow skin. The delicious yellow flesh is firm but juicy. Not dry like some common varieties of Apricots. Apricots should be cultivated very shallow as the feeder roots are close to the surface. Golden Cluster is labelled with a GREEN stripe over a WHITE stripe.

PRICES:

2 yr. Large Trees - \$1.95
2 yr. Medium Trees - \$1.50

MOOR PARK

The most popular commercial apricot grown and adapted to most all sections. It is rather a large Apricot with tender, sweet orange flesh. It separates easily from the small seed and is a grand variety for eating fresh, canning, or drying. Hangs on the tree remarkably well. Every home orchard should include apricots, for the tree-ripe fruit has a flavor that just can't be matched. Moorpark is labelled with a GREEN stripe over a BLUE.

Pears DOUGLAS PEAR

The Sugar Pear That Bears Very Young

We've never had any pear variety that offers more production or bears earlier than Douglas. I'll never forget summer before last when we had a Douglas Pear block near a road that goes over the nursery. People that visited us and drove over the place never ceased to be amazed at this whole block of trees just loaded down with fully mature pears. Why, the trees weren't but about 4½ or five feet tall and many of those little trees had as many as ten or twelve pears on them! You'll like the bearing qualities, and the color, and taste of Douglas Pears just as all of those visitors did. It's *Blight-Resistant* and bears consistently each year, ripening about August 15. Labelled with a PINK stripe over a YELLOW stripe.

KIEFFER

A variety adapted to all sections — including sections where Bartlett is a failure. It is a sure bet for heavy, consistent crops of large, white-fleshed pears. It is a golden yellow pear that is an extra good cooker and ideal for winter storage. It will keep for a longer time and gets very sweet and mellow after about a month. Kieffer is labelled PINK over RED.

ORIENT

A brand new *BLIGHT-RESISTANT* variety that has been acclaimed outstanding everywhere that it has been tested. Without reservation, we, here at Wolfe Nursery, recommend Orient as perhaps the finest home orchard and commercial pear that has ever been sold. Sturdy, healthy trees, heavy production, high quality, and adaptability to all sections, place Orient on the top of the list of America's Pears. Its skin is lemon-yellow and the flesh is creamy white with a smooth, delicious texture. The shape of the tree makes it ideal as a yard tree. Labeled PINK over WHITE.

THE Holland Apple

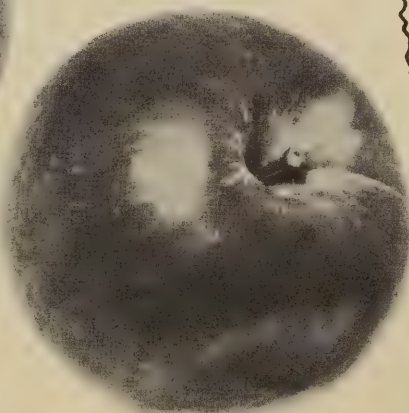

DOUBLE RED
DELICIOUS

GOLDEN
DELICIOUS

KING DAVID

Mother Nature must have decided to combine all the best qualities of apples into one when Holland was originated. When I first saw this grand apple at Weatherford, Texas, I knew it was the Apple that Texas and the great Southwest needed. For many years, Holland has proven to be a consistent, heavy producer of huge, dark, strawberry-red, smooth, firm, juicy-fleshed Apples. Its delightful flavor more than pleases the most exacting taste.

Being a native Texan, Holland is especially adapted to our climate and soils, but has proved outstanding wherever Apples are grown. Holland is the perfect apple for home planting. Of course, its most outstanding point is that it will consistently produce apples for us here in the South. Then, it's self-fertile. You do not have to plant another apple with it to get it to produce. You get heavy production with just one tree. It ripens early - July 20. It will fruit for you the 2nd year following planting. Labelled ORANGE over RED.

THERE'S GRAND EATING PLEASURE IN

Golden Delicious

Pictured left

By far the outstanding Apple in its class. Self-fertile and an excellent pollinator in the home or commercial orchard. Golden Delicious is a mild, juicy, sweet, crisp, white-fleshed apple with new-gold skin that has a distinctive flavor all its own. It is a richly fragrant and appetizing apple that belongs in every home planting. Like Holland, Golden Delicious is adapted to a wide territory and bears very young. BLACK TARTARIAN

A large, sweet, black cherry, known best as an ideal fresh eating fruit. The Cherry is rich and flavorful—the tree a vigorous, upright grower that is a colorful, welcome addition to any landscape plan. It takes such a little bit of space to grow cherries that no home orchard should be without one or two. The unusual, appetizing flavor of juicy homegrown fruit pays you back a hundred-fold for the small amount of effort it takes to grow and care for the trees. Black Tartarian is labelled WHITE over RED.

Beautiful to see

Delicious to eat

We know of no other fruit tree that offers such beautiful blossoms during the spring — such outstanding, colorful red foliage all during the growing season — and such delicious eating. Allred is a dual purpose tree — not only does it produce one of the nation's outstanding quality plums, it is absolutely unsurpassed as a beautiful and colorful landscape tree. The fruit looks like a dark cherry, only larger, and its flesh is a juicy, deep red. It is ideal for either eating fresh off the tree or for making a tasty, bright red jelly. The leaves are RED — the stems and branches are RED. The fruit is RED inside and out, and the tiny seed is RED. Allred is truly ALL RED. Labelled with a BLUE stripe over a WHITE stripe.

Howard's Miracle

(PATENTED)

THE MOST SENSATIONAL FRUIT OF A DECADE

THE INTRODUCTION of the "Miracle Plum" marks an epoch in the advance of fine fruits for the table. The tantalizing and delicious flavor, the great size, firm amber flesh, combined with a delightful color, place the "Miracle Plum" in a class by itself. Invariably, after tasting the "Miracle Plum," comes the exclamation: "This fruit is truly a miracle. It is something out of this world." Here are some facts about the "Miracle Plum": Extraordinarily large size fruit, average diameter $2\frac{1}{2}$ to $2\frac{3}{4}$ inches. An astounding surprise to the palate, flavor not unlike Nectarine, Peach, and Plum mixed; skin thin and unnoticeable when eating fruit, miniature stone, meat Nectarine-like in quality. Keeping qualities excellent, delicious in preserves, fruit ripens over long period during July and August. Exceedingly fast growing and quick bearing tree, which will bear fruit second year after planting. Beautiful ornamental tree of medium size, foliage persistent, in autumn richly tinted not unlike the leaves of a Maple. Can be grown in a small garden. 1 Yr. Trees, Labelled BLUE over ORANGE.

PRICE: \$2.00 each

You've Never Tasted Plums Like These

The great size, the new delicious flavor. (Is it Nectarine? Is it Peach? Is it a Plum?) The firm amber flesh makes it the most exciting fruit grown today. Plant one or more of these exceedingly fast-growing, quick-bearing trees and harvest fruit the second year. Bears through July and August.

Sapa PLUM CHERRY

This is Mrs. Wolfe's jelly plum and she personally asks us to pass on the following words to you: "We've been growing plums here at our nursery for over 30 years, and I'm sure that over that period of time we have tested over 100 plum varieties. Never, during that period, have I ever seen any plums that made a more-beautiful or tasty jelly than the Sapa Plum Cherry. It has been our family favorite for over 20 years." The Sapa is a bountiful producer of rich, dark purplish-red plums that are just as sweet as sugar. It ripens in the latter part of June. Labelled BLUE over PINK.

Wolfe's NECTARINE

The Nectarine is such a delicious fruit it has always been a source of disappointment that there has been no Nectarine variety which was dependable in this area. Only now have we succeeded in getting a Nectarine that has stood the test. These big, bright red and yellow fruits are unbelievably good, and so good looking that you will keep a bowl of them on the table just for ornament. (We guarantee they won't stay in the bowl long, they taste too good.) You'll not have to hope for a crop—you'll get it every year without fail. Add to all this the fact that the big spring blooms have such a lovely clear pink color that it is almost as ornamental as the finest flowering Peach—after all this, does it sound as if you could afford to be without it? Ripens in July.

BRUCE PLUM

The best large red Plum grown in the South. The tree is very healthy, bears very young and produces loads of Plums nearly as large as a hen egg. It ripens early in June, and growers report getting \$8.00 per bushel on the New York market. Other varieties of Plums must be planted with Bruce for pollination. It is the only variety on our list that is not self-fertile. In commercial plantings, we recommend planting one pollinator to twenty Bruce. Bruce is labelled BLUE over RED.

Greatest
Berry
I've Ever
Found*

Juicy cobbles made with fresh berries, home-made jam with gobs of butter and hot biscuits — those are the things that the whole family can enjoy. The eating pleasure that you get from your own berry patch is worth time and time again the little amount of work it takes to grow berries.

THE INCOMPARABLE

ROSSBERRY

IT HAS EVERYTHING and is the sensation of quick-freezing. It is huge in size, and has the unusual combined flavor of Raspberry, Loganberry, and the sweet Blackberry. It fruits the first year after planting and withstands cold and drought. It actually likes dry weather. Remarkably free of the usual diseases. Small, soft, seeds are very few. Now growing in over sixty Federal and State Experiment Stations. First berry to ripen and a very heavy producer. 600 gallons per acre. Grows on a trellis and very easy to pick. As told by the original grower, Rossberry was created by Luther Burbank and went undiscovered for many years.

Wolfe's SUPER JUMBO Roses

To make it easy for you to get the most from your Rose budget, our rose list is made up of only the finest types and varieties. We grow the most popular and dependable older roses along with the most exciting new ones. All of them selected for hardiness, abundant bloom, and easy growing. Among the hybrid tea roses, you have a remarkably wide selection to choose from. We especially recommend *Peace* and truly believe it to be the most outstanding rose of all time. The new All-American "Helen Traubel" is a color sensation that is sweeping the nation as well as winning awards abroad. We love all of the rose varieties that we grow—and each variety is outstanding—as our customer, you are assured of one thing when you buy a Wolfe Nursery Rose—you're assured of quality—above all.

The Magnificent

MIRANDY

One of America's top ten All-American Roses. We have grown and tested many beautiful red roses—but none can compare with Mirandy. Mirandy is huge, normally 50 petals. Its deep, deep crimson flowers open slowly from exquisitely modeled ovoid buds, long pointed and filled with rich, penetrating damask fragrance. Mirandy blooms continuously from early spring until hard frost. Plant Pat. No. 632.

CHARLOTTE ARMSTRONG

Since its introduction when it won the sole All-America Award, Charlotte Armstrong has become the favorite rose in thousands of rose gardens throughout the country. In our opinion, it remains the top All-America Winner out of all the fine varieties given this honor. Certainly it is one of the finest roses that we grow here at Wolfe Nursery. If you are planting it for the first time, you will marvel (as we still do) at the beauty of the lovely, long, carmine-red buds, with their perfect streamlined form, and at the magnificent open blooms of rich cerise. The open flower is usually 3 or 4 inches in diameter, with about 30 petals, high-centered, remaining a beautiful rich color until the last petal drops. No printer's inks can illustrate the richness of its color—you have to see it to appreciate it. Plant Pat. No. 455.

Fashion

The Glorious

FLORIBUNDAS

Fashion

All America Award Winner for 1950, Fashion blooms are bright coral-peach, a most amazing color because it is so brilliant and, at the same time, so soft and lovely. There is no other Rose color like it. Add to this the exquisite form of both the bud and open flower, and you will see why this rose is being hailed with such enthusiasm. It has won the National Rose Society's Gold Medal in England and the famous Bagatelle Gold Medal in France. Scores and comments of the All-America judges gave it high praise, also. The open blooms are about 3 inches across, or larger. Buds open slowly to a wide-open flower with gracefully waved petals and a rich display of golden yellow stamens. Pleasing old-Rose fragrance. Plants are good and vigorous, bushy, with neat, small, glossy foliage. It reaches a height of 2½ to 3 feet, with few thorns. We consider it a gem, as it brings a brand-new, enchanting color to Floribunda Roses. Plant Pat. No. 789.

WEIGELA *Cardinal Shrub*

Every so often there comes to our attention a plant so unusual, so outstanding, so spectacular that it merits inclusion in our catalog. Such a plant is the new Weigela "Cardinal Bush."

It is a hardy plant — a flowering shrub that can be depended on to produce its blooms in exciting abundance each year. All of its many branches are engulfed with trumpet shaped, red blossoms. It is an everblooming flowering shrub that complements your landscape the year round with delightful wine-red sprays. Its foliage is rich and luxurious and the contrast of color between bloom and foliage is a joy to see. Usually new introductions are priced high because of the expensive research that a reputable nursery must undertake, but we know that the Weigela "Cardinal Bush" is destined to great popularity here in the South — so — we are pricing it low, depending on its success in your yard to bring repeat orders from you as well as your neighbor.

TREE ROSES

The most beautiful, unusual, and eye-catching roses grown are tree roses. For lending your garden or yard a touch of formality, few, if any, plants can equal them. Tree Roses are grown by budding the desired variety into a tall, straight stalk at a height of 36 inches. The bushy head produces more flowers, and larger ones than the bush type of the same variety. You will note that the Tree Roses which we list are the same varieties as some of our most outstanding bush roses. For full description of the Tree Rose Bloom, look under the bush Rose of the same name.

THANK YOU!

STATE FAIR COLLECTION

A super-special, everblooming collection selected for you by Mrs. Ross Wolfe. The "State Fair" is made up of five No. 1 grade, Western-Grown Jumbo Roses. One each of Red, Yellow, Pink, Two-tone, and White. All are two-year, field grown. All are guaranteed to live, grow, and bloom.

ALL 5 ROSES ONLY **\$3.50**

Etoile de Hollande

The finest of all the standard dark red roses. Its blooms of rich red are heavily textured and long-lasting. Its fragrance delightful. Many gardeners who write us proclaim Etoile de Hollande as the superior red garden rose. We like it. Labelled RED over GREEN.

to Your Door*

TALISMAN This vividly colored Rose is probably better known as a florist's cut flower than any other. Exquisitely formed, orange-scarlet and golden yellow buds are borne on long stiff stems and are richly fragrant. Labelled ORANGE over WHITE.

EDITOR McFARLAND Even, glowing pink describes the bloom, which is free and abundant on a strong-growing bush. One of the most popular and dependable pinks and a great cut flower, it has enjoyed a long and merited popularity. Labelled PINK over BLUE.

GOLDEN CHARM An outstanding yellow with jaunty, tightly furled buds and graceful, high-centered open flowers. A rich yellow color with a delightful old-time rose fragrance. Labelled YELLOW over WHITE.

SNOW WHITE (KAV) One of the best and most beautiful of all white roses. Attractive double bloom with a background of rich green foliage—everblooming, from spring until frost. Labelled WHITE over RED.

ALL TIME ALL AMERICAN ROSES

PEACE

*Top winner at Rose Shows
all over the world.
Our best Rose of all time.*

● Certainly this All-America Winner is one of the most beautiful of all Roses. Perhaps its chief beauty is the great range of colors through which it passes. The full ovoid bud is deep yellow, with the edges of the petals picoted cerise. It slowly opens to a glorious 5-inch bloom with shades of canary-yellow, pale gold, cream, pearly white, and apple blossom. Although the bloom is unusually large, double and long-lasting, the dainty coloring gives it marvelous beauty. The plant is just as large and fine as the blooms, being above average in size, and the flowers are borne on long straight stems above the vigorous shining foliage. The fragrance is moderate. No such amazing combination of strong stems, fine lasting qualities, and huge, perfectly formed, delicately colored Roses, ever existed before. Plant Pat. No. 591.

HELEN TRAUBEL

*A distinctively new Rose
of rare color and growth*

● Once in a while a new rose appears which from the very first displays such superior qualities that there is never any doubt about its ultimate popularity. Such a rose is Helen Traubel which we think is probably the finest new variety that we have introduced since Charlotte Armstrong. The All-American judges have confirmed our opinion by honoring it with an AARS Award for 1952. In Italy the Gold Medal of Rome was conferred upon it in June 1951. The color varies with the weather — sometimes a light sparkling pink, more often a luminous apricot color (its most characteristic shade), sometimes verging into a ripe bronzy orange. Its unusually large, long slender buds are magnificent in themselves. The half-open flower maintains a delightful fullness of form, and even when fully blown, the big petaled flowers display the lovely color in a lavish way (about 27 petals). The flowers are often 6 inches across but always graceful. It has a mild pleasant fragrance.
